**Job Announcement:**

**Research Fellow, Firm Networks in Ecuador**
**Evidence for Policy Design, Harvard University**

**Background:** Evidence for Policy Design (EPoD) at Harvard University is a research program that promotes the use of rigorous evidence to inform the design of public policies in countries around the world. We inform public policy by working alongside policymakers to design and test interventions that will maximize the reach of public resources and more effectively deliver services to the poor. EPoD's cutting-edge research is identifying how policy design can best leverage policymaker and researcher insights to enable sustainable development. Current research topics at EPoD include governance, education, entrepreneurship, health, agriculture, sustainable development, and access to finance. Geographically, our research covers South Asia, Indonesia, parts of Africa and Latin America, and U.S. projects on health policy and political participation.

Learn more about EPoD here: [http://www.hks.harvard.edu执教 centers/cid/programs/evidence-for-policy-design](http://www.hks.harvard.edu执教 centers/cid/programs/evidence-for-policy-design)

Each year, EPoD accepts a number of research fellows to collaborate with faculty on specific research projects. For more information on the EPoD research fellows program, visit: [http://www.hks.harvard.edu执教 centers/cid/programs/evidence-for-policy-design/get-involved/research-fellows-program](http://www.hks.harvard.edu执教 centers/cid/programs/evidence-for-policy-design/get-involved/research-fellows-program)

**Position Available: Firm Networks in Ecuador:** EPoD is currently seeking a research fellow to work with Professor Monica Singhal at Harvard University to provide inputs at all stages of the academic research process: background research and funding applications, data acquisition and cleaning, analysis, statistical modeling, write-ups of results, and paper revision. The fellow will perform analysis on transactions microdata.

**Description:** The position offers an opportunity to work closely with economists doing empirical research in top-tier academic institutions. The Research Fellow will collaborate with the Principal Investigators (PIs), Professors Monica Singhal, Dina Pomeranz, Dave Donaldson and Paul Carrillo on the analysis of data related to firm-to-firm networks in Ecuador.

**Responsibilities:** Rigorous statistical analysis; cleaning and managing large datasets; writing project reports and contributing to academic papers.

**Qualifications:** Bachelors or Masters in a relevant field with strong quantitative background; prior research assistant experience preferred; advanced programming in Stata and experience with MATLAB, graduate-level coursework in applied microeconomics and econometrics a plus.

**How to Apply:** Send an email to Epod@hks.harvard.edu following these instructions exactly:
- In the subject line: Put your full name, first (given) name followed by last (family) name, as well as “Singhal – Firm Networks in Ecuador”.
- In the email body: Include a short statement of interest and a description of your experience and skill level in Stata and MATLAB.
- Attach your CV, transcripts and reference letters from two professional or academic references.
Applications are reviewed on a rolling basis, and you will benefit by submitting as early as possible. Only short-listed candidates will be contacted for an interview.
