Based in Wichita, Kansas, Koch Industries, Inc. is one of the largest private companies in America with estimated annual revenues as high as \$100 billion, according to Forbes. It owns a diverse group of companies involved in refining, chemicals, biofuels and ingredients; forest and consumer products; fertilizers; polymers and fibers; process and pollution control equipment and technologies; electronic components; commodity trading; minerals; energy; ranching; glass; and investments.

Since 2003, Koch companies have invested more than \$80 billion in acquisitions and other capital expenditures. With a presence in about 70 countries, Koch companies employ more than 120,000 people worldwide, with about 70,000 of those in the United States. From January 2009 to present, Koch companies have earned more than 1,200 awards for safety, environmental excellence, community stewardship, innovation, and customer service.

The Koch internship program is an in-depth experience, placing interns in a challenging and meaningful work environment that includes value-added project involvement, professional mentoring, and capability based competitions. Interns also enjoy a variety of social events and community volunteerism opportunities scheduled throughout the summer to facilitate networking and lasting career connections.

Koch Companies have positions available in Wichita, KS & Kennesaw, GA.

A Day In The Life May Include:

Due to the collective size and scale of Koch companies, our analysts have the ability to learn and practice a variety of disciplines, including treasury, market analysis, finance, supply chain/logistics, business strategy, business development and risk management. In these roles you can develop industry and market understanding; build relationships with traders, marketers and position managers; prepare financial analyses; and advance your knowledge of cash management, financial modeling and credit risk.

Our positions offer an opportunity to:

- Perform economic modeling to predict future business results in support of corporate and business development initiatives to improve profitability and capital efficiency.
- Develop market points-of-view for products including supply/demand, global product balances and trade flows, and margin forecasting.
- Create detailed production/distribution plans and use economic thinking to optimize the overall supply chain of various products spanning multiple industries
- Communicate trends in arbitrage and fundamental drivers of market conditions with team members and business leaders.
- Gain an understanding of the relevant industries and market structure; build relationships with customers, traders, marketers, and business leaders; become knowledgeable of and ensure compliance with standards and other compliance requirements; cash forecasting; financial analysis.

- Provide cash management: Cash forecasting; provide support for short-term working capital and long-term structure requirements.
- Create detailed modeling: build ad-hoc models used to optimize scheduling/distribution; credit risk, and financial information.
- Deliver profitable solutions through analytical observation and alternative analysis.
- Effectively present results and recommendations to senior leadership in both written and oral formats.

What You Will Need (Requirements):

- Pursuing a Bachelor's or Master's degree in Finance, Economics, Agricultural Economics, Agribusiness, Industrial Engineering or a business-related field with a minimum of six hours of business-related coursework
- Cumulative GPA of 3.25 or greater
- Eligible for full-time employment no later than summer 2019
- This role is not eligible for work visa sponsorship

What Will Put You Ahead (Preferences):

- Experience with Microsoft Office toolset
- Strong critical and entrepreneurial thinking skills
- Strong interpersonal and customer relationship skills

Salary and benefits commensurate with experience.
